Dear Dr Jackson
The Steamer
came in early on
the morning of the
8th we were glad
to get our letters -
& oh so glad to hear
what you had done
for us. We will be
so rejoiced when our
friends arrive. Miss
Dunbar is jubilant.
She tries to put on
indifference. But I
tell her that will
not do with me.

Mr & Mrs ⁽²⁾ Young have
very happy Tern Tums.
The Hospital is get-
ting along swimming-

be surprised to hear
of Louie & Lillie being
married so soon. I did
not intend to let them
get married until Spring
But I thought I might
as well give up for
they were of no earthly
account. I tell Miss

be the same way
when J.W. comes, so
I want her to get mar-

as he gets here. I think

BOARD OF INDIAN COMMISSIONERS,

WASHINGTON, D. C.

Rev. Sheldon Jackson D. D. Jan. 4, 1882

Dear Sir,

We shall be glad
to see you at the Annual
Meeting of this Board in
this City Jan. 12, 1882.

Please mail to me
two copies of your last
Annual report of Indian
Mission work.

Yours truly

Fort Wrangell Alaska Jan 9. 82.

Dear Dr. Jackson;

Your very short note of Nov 23rd is just at hand. The welcome news it contains makes partial amends for its brevity though there were many things I wished to hear about from you. I thank you most heartily for the fact you have taken in getting the debt burden lifted from my shoulders. The draft for the 500.00 as come by this mail & the promise of more by the next. The Board also made me happy by increasing my salary as you wrote. I thank God, you & the Board.

The commissions granted
give me great satisfaction, es-
pecially that of my dear friend
Prof. Gould, & the one of
which you did not tell me,
that of J. W. M'Farlan to
this place. We were all as-
tonished at the intelligence
communicated a few days
ago. Miss Dunbar has kept
her secret well. I am entirely
heartily pleased. Of course if
the Board had commissioned
any one else without consulting
me as the head of the school
as well as of the mission, &
sent him here as evangel-
ist & teacher, I should have
felt hurt & indignant. But

3

as it is we enjoy the surprise
& rejoice in the happiness of
Miss D & in the prospect of
an earnest & faithful helper.
Perhaps providence is preparing
the way for a larger field of
usefulness for myself without
my beloved flock being left
without a pastor. But be assured
that my first desire is to ad-
vance their interests & after that
those of S.E. Alaska. I am glad
that Mr. McFarland has some
knowledge of medicine & so
can take the place of Dr. Car-
lies who will probably leave
by the May 1st for Harrisburg.
I rec'd no letter from Bro. Goad
by this a/c but heard from
my sister that he was well.

She also tells me of the pleasant visit she had with you at Parkersburg & the interesting meeting there.

I shall write by the mail again to different members of the Synod of the Columbia urging immediate steps towards organization of the Presby of Alaska. If there is any indisposition on the part of any to take such steps we will petition Gen. Assem. & get it through at once. For the sake of harmony on this coast it would be better for Synod to do the organizing but we want it done at once. Mr. Wil-
lard Mr. Brady Mr. Gould Mr. M'Farland & myself constitute

The requisite fine. But as Mr. Brady is such a very uncertain factor morally locally & ecclesiastically I do hope we can find a minister for Littka before Gen. Assm. & if possible one also for Haonyah.

So far as I can learn the Synod took no steps toward locating our missions in any presbytery. I have not been able to hear definitely.

Rev. Ball writes encouragingly of the prospects of the Haaka Bill. But I see little mention of the education movement. Immediate efforts on the part of the Board and all other friends of the movement are needed. If the educa-

this clause is not incorporated in the bill it needs a more special & vigorous effort to insure its passage. Please let me know by document & when what has been done & what the future prospects are.

Please think of what I said in my last about getting a steam cutter - one can be purchased in every ^{way} adapted to our purpose for a very small sum. Let me to wait upon the missionaries & carry supplies through the archipelago. Get the mail contract from Wrangell to Hyak Klawock Shikian Killisnoo Donyah Chilcat & Sitka and so on & that will pay expenses & more. I think the plan forme-

triable if there is any one to
look after it in Washington.
The little boat if under
our control will of course
serve the missions all freight
from this point & all canoe
expenses will facilitate
meetings conventions, the trans-
portation of children to the
industrial homes the trans-
portation of materials for
the erection of buildings &c.
Such a boat as I. contain-
plate would need only three
men or at most four - a captain
who would also be pilot, an
engineer, & one or two hands,
notices. Some such craft has
become a necessity to these

missions of God among
the savages to the
advantages of missionaries should
almost equal the sum of
expenses while the moral
& religious advantages of such
a craft would be incalculable.
If these factories can be
established & the work con-
tract obtained at reasonable
a profitable investment.
The latter should have a
condensing engine to heat
salt water & should be able
to use wood. I think the
missionaries would be anxious
to fulfil this duty & that the
expenses of a steam engine
would not be equal to
that of heat the water.

of the points mentioned or
of the tribes of towns of the
Archipelago. We are glad to submit
this matter to the Board
to write one fully your views
and they ought to be done
in this direction soon. How
is Presbyter going the next 2
years? I wish him to confer with
me other than to lay the
matter at once before the
church. Of course I thought
of having more frequent
meetings but communication
should be the starting point
of such a effort. I am ready
to go to the first meeting

Dear Dr. Jackson

I have written you rather a long letter for publication, but there was so much to say that I could not shorten it very well. You will see by the letter that we have had a very busy but a very interesting time since my return. This week of Prayer we have had very interesting meetings. We have all felt God's presence & reviving power in our hearts.

I think about a
day in those for ^{for} ~~for~~
tonight. Louie & Lillie
are so very anxious
to be married that we
have decided to have
them married next
Monday night. You
will have received
the ~~the~~ Mr Youngs letter
of last mail in refer-
ence to the establishing
of a mission at
Shacon. Of Captain
Sprague's offer & of the
thought of sending Louie
& Lillie there in place
of to the upper Chilkats.
We all think it is a
splendid plan. &
Louie & Lillie want
to go there very much.
Captain Sprague is

anxious to have them
go right over next
month when he returns
home, & go in & keep house
for him until their
house is put up. Then
they can commence work
right away. Mr Young
thinks there will not
be any doubt about
the Board appointing them
& that there will be
no risk in them going.
(Miss Dunbar & I)
We are very anxious
about the coming steamer,
I do trust ~~J. W. M.~~ ^{T. W. M. Farley} will
arrive, we need him
here first now. Mr Young
told me today he was
going to write this mail
for another teacher. But
I don't know who he
has in view. But

I think it will be to
late for his Teacher
to be appointed. I am
so anxious too to hear
if Captain Gould has been
appointed. We have heard
nothing about there coming
as far as the Board is
concerned. They sent me
the actions of the Presbytery
in his case. We have
not heard from Mr
Chapman lately. There are
very few canoes going back
& forth this time of year.
Miss D. kindly offered to copy
my article for publication.
It will be a great
help to me, for I have ~~lots~~
of writing to do this mail.
I will no doubt write
more to you after the
mail comes.

Yours truly,

A. R. McFarland.

Dear Dr Jackson,

I was so busy
on the arrival of the last
steamer getting the lumber, etc
into the church, that I could
only write you a line. Have
done nothing towards repair-
ing the church yet, as the
past two months have been
very stormy & the roof covered
with snow. The lumber is
wet & green. The days are
so short, we have to light
up the house about 8 P.M.
We had a very severe storm
on the 18th of Dec, our house
shook so, that we could not
sleep all night, & I regret to
say that it leveled our bell

lower with the ground.
The bell is safe, but the iron
frame is broken beyond repair.
It landed in the rear of
our Home, & ~~while~~ while we
are very, very sorry that
our nice bell is partially
broken, we think it was
very fortunate that it fell
at night, otherwise it
might have crushed
some of our boys. It even
blew part of our garden
fence down. Uncle Murphy
came up with some of the
Indians & a carpenter &
blocked it up, so that we
used it to call the Indians
to our Christmas Festival,
which began at 11 A.M.
& ended at 1 P.M. We had
a "Merry Christmas" indeed.
Rev. J. G. Brady made an

address, referring to the first meeting he held in the Castle when one of the Indians was drunk & all were filthy, & most of them wore blankets. When he told them what he wished to do, start a school & a church for them, their Chiefs replied that would be very good, but white men had made them many promises before, & never kept them, & they had very little faith in what he said. In comparing their present condition with what it was then, he said, that he never expected to see ~~so~~ so much improvement in his life time. Our room was crammed, seats filled, floor covered, & aisle blocked, Maj Morris

and quite a number of the
Citizens were present.
Our only regret was that
Capt Glass was absent
on a cruise, & was detained
by ^{the} storm. The boys had been
looking every day for a
week to see the smoke of
the Wachusetts, We were much
alarmed for his safety.
The children sang Christmas
carols chanted to the
delight of the audience, &
repeated part of the 2^o chap
of Mat. All of the children
were made happy with a
gift of some kind, We also
gave presents to the chiefs &
their wives

I wish you would

these two men. of their

etc. You need not be
afraid of hurting my
feelings. I want you to
tell me honestly. I wish
you could meet my
sister. We don't
know where to look for
any of them. I delivered
your message to Miss
Dunbar. She said "High

same wish about you
being here. With love to

I received a letter from the Russian Priest a few days since, in which he stated that some of our boys were "regenerate in his church," & implored me not to keep them away from their "Mother's Kirk". (I give you his words.) These boys have been baptized in that church, & I let them attend ~~it~~ ^{that} church Saturday nights, on condition that they should always ask me, so that I should know where they were, & delayed publicly worship until their return. Five of these

went one evening
without asking, & on
their return I told
them, if they ever repeated
the offence, I would send
them away from the
Home. They were so frightened
-ened, they did not ask
to go again, & of course I
said nothing to them
about it. This was the
cause of the letter; Lash
Sunday night I found
out that one of the boys
had stolen away & that
the priest had baptized
him. I sent him away
from the Home at once.
I told the other boys I
should write to you
about this matter, & that
perhaps you would not
keep any of them, unless

They gave up going to that
church, one of them said
the other day, that he would
have nothing more to
do with it. I told the
Priest that they might
come Saturday nights,
but must attend our
services on the Sabbath, also
that I should not allow
them to attend their
holidays, etc. Please advise
me in your next about
the matter. Capt Glass
informed me that Mr
Styles was getting along
nicely with his work.
Has some sixty or seventy
scholars in school, & the
room is filled on the
Sabbath. Rev Mr Willard
wrote me, that they are
getting along nicely in their

work, & are very much
encouraged. Jan 10th 1882
Steamer came in yesterday
we have quite a number of
blankets, procured by Mr. Mrs.
Symonds, & they say that they
will send us a Sewing machine
by next Steamer; Received
several blankets also, from
our friends of Bridgeport, a
nice donation from Mr.
Hobbs, numerous pkgs from
various places. Have all been
writing all day, letters postaled
re acknowledging the receipt of
the same. Redpens off some of them
so that we cannot tell where
they are from. Massachusetts leaves
to morrow for San Francisco, offices
calling. Grand confusion, very
tired, but, happy function,

Dear Dr. Jackson

Many thanks for the "North Americans" you so kindly and thoughtfully sent me, they are very welcome on these long dark evenings when one in this isolated place & doubly isolated just now by the icy breakers massing to throw open books and memories as the only

safeguard against en-
emy. This as you are
aware is our dullest
Season, amusements are limited
to the monthly Ward Team and
the life of the Evangel
C H. has become very
monotonous. The holydays
passed pleasantly enough
Mrs Bradford kindly invited
me to see the exercises of
her pupils on Christmas eve
when they had a famous
Christmas tree on which
numerous presents were

displayed, every child
received something and
all were delighted and
satisfied. On Christmas
Monday I dined at the "Home"
with Mr Young and Dr Curtis
and their families and the
two ladies of the "Home".

My three austral emus
Slyne, Pie, and Rockwood
Bank are still in hiding in
the woods. Stephens is still
here and talks of going
down to Victoria by this steamer
if he attempts it he will

walk into a trap as
there is a U. S. Marshal
on the steamer with a
warrant for his arrest and
conveyance to Portland.
The town is very quiet no
drunks, rowdies or idlers.
The Indians are quiet and
orderly but the whites are
idle probably because
of the dull times, but
few Cassiar miners are
working here and those
that are here have little
money to spend in the
Saloons. I had hoped
to receive a copy of
Senator Miller's Alaska
bill but cannot have
that a single copy has

been deceived here.

I hope that he will not lose all by asking too much. S.E. Alaska really only needs a very simple government for the suppression of petty crimes and the collection of debts, magistrates a few police officers and houses of detention are needed here and at Sitka. Capital crimes can be sent below for trial or a U.S. Judge from Washington City can come up for a month or

two in the summer. The
Collector might be made
ex officio Governor, and
a gun boat carrying two
heavy guns with a good
supply of cartridges and
small arms should
cruise about visiting all
the towns and Indian
dwellers between Degassus
and Chilcat two or three
times a year. So much
time has hitherto been wasted
at Sitka by the warships
at least it was so until
Captain Glass took charge
of the Wachusett, he has
been more active than his
predecessors. Believe me
Very truly yours J. S. A. Ross

Rev. Sheldon Jackson, D.D.,

New York City.

My dear Doctor:

I wrote the letter as you desired to Senator Blair. I send two enclosures which you will understand.

You will imagine my surprise when Col. Ball called this morning and informed me that Senator Miller thought there had better be no educational clause in the territorial bill, that is, the bill organizing the Territory; but that it better be offered separately. There may be some mistake about this, of course.

Ought you not to let your board take formal action upon it as a board: they having done so much why should they not state that they

have as a "Whereas", and then state that they have found the people docile, self supporting, and mainly in need of law and education, for the benefit of Congress?

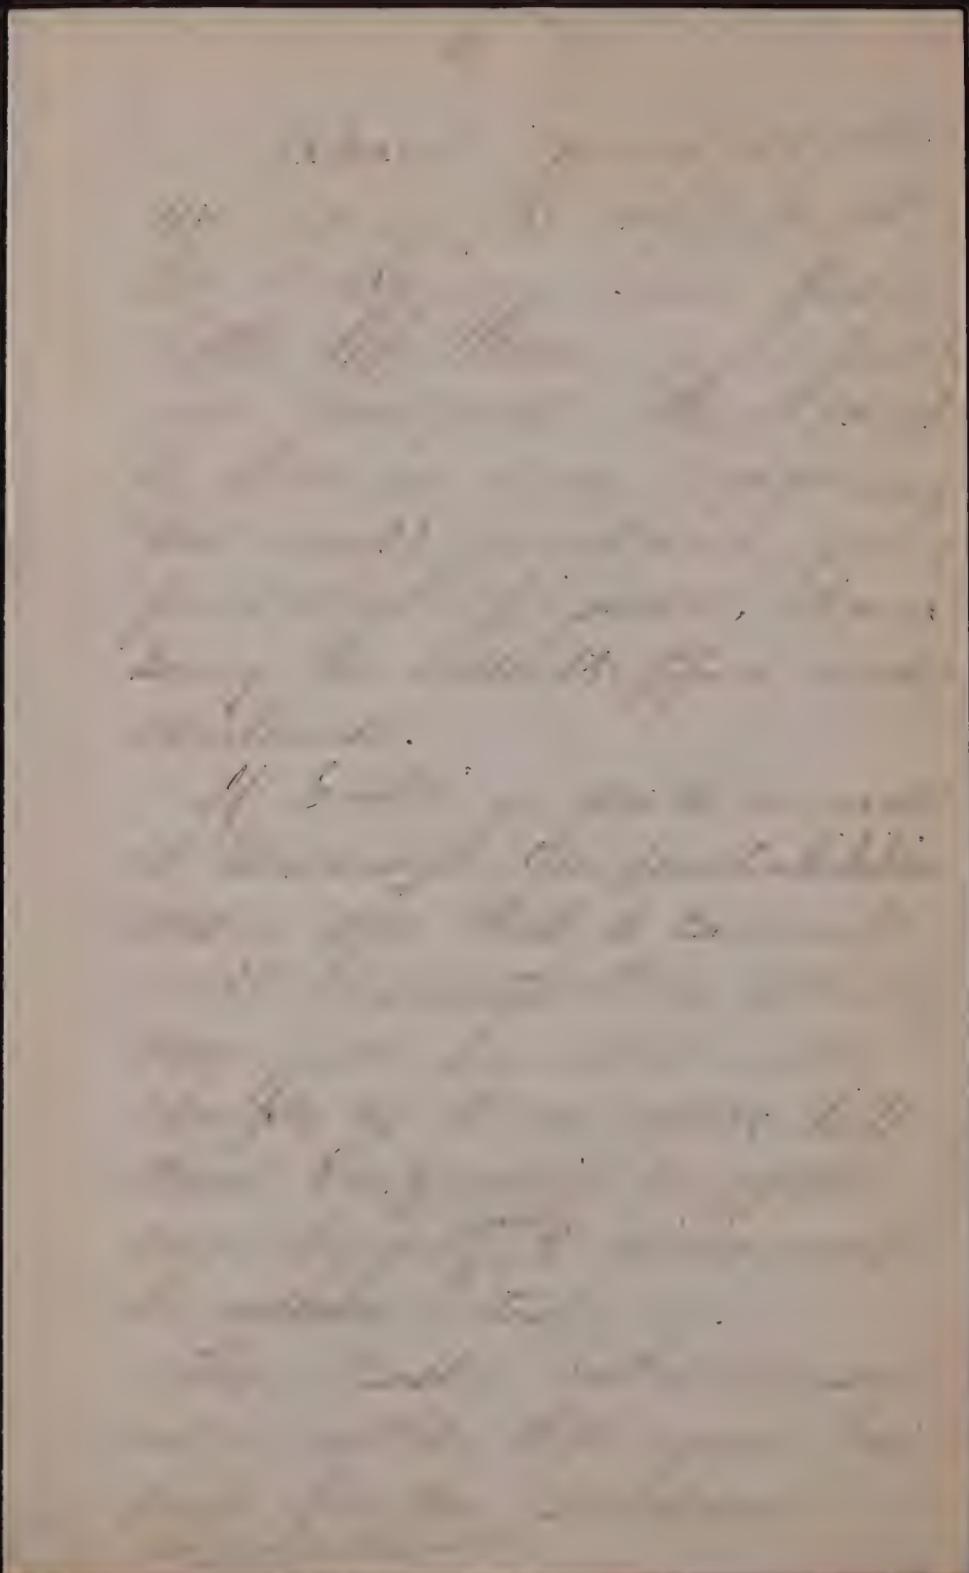

Very truly yours,

Rev Sheldon Jackson

Dear Sir,

Can you tell
me something more
about the Hospital at Fort
Mangus Alaska. The ~~children~~
children in a little L.S. I
am interested in some
fifteen miles from here
at a Mission of my school
are raising money for the
cause of home missions
& are anxious to have it
go to a definite object so
they ~~may~~ ~~make~~ from time
to time what ~~their~~ money
is doing. Could they

Take a bed in the Hospital
that is payed so much a year
to support one person in
the hospital & let them
bear two or three wives
a year who occupied their
bed & any incidents con-
nected with the patients -
I think they would like it
even better than educating
a child. Surely in every
Mission enterprise there
should be a hospital for
all hearts are softened by
sickness & sorrow hospitals
have always been the accom-
paniment of the gospel
of the Great Physician -
I only sing the strain
people of the land will
take up this strattle &
before long a well appointed

hospital with a good physician & well trained
nurses at the head will be provided & soon
also from that will grow a home for the
aged & infirm. Whatever we can do to
help in this object we will cheerfully
do. If you will kindly ~~give~~ let us know
something in the subject we will be much
obliged. I hope you will let us know
when you come East for we would like

to have you speak at one
of our Missionary Meetings
which occur the beginning of
every month. Our schools &
educating a child in Indian
Territory & you in Alaska
& would like to know from
word of mouth about these
schools.

Truly yours

Mrs. Dorcas Bock
Lebanon Pa

Of course this letter
is not intended for
publication.

Dear Dr. Jackson.

We both send
kind regards to you and
Mrs. Jackson with con-
gratulations that you have
a home again.

Amusing letters from the
Parlide Pueblos this month.
Some of those boys are
disposed to solve the Indian
question.

Those children are doing
well.

My dear fri

Last evening, as
a member of L^r Hall Church
I listened with profound
interest to your lecture on
Alaska. Mr. Palau & myself,
are associated in our
Pac. Music, connected
with our church & we have
thought to day, that if
it were possible, on next
Sabbath afternoon, for you
to give our scholars a
little talk on the same
subject, we should

greatly appreciate it -
I would measure the
interest in our Missionary
work. - Last Sabbath, in
my Missy Report, I specially
alluded to, & recommended
at La Plata. Our Session is
at 2nd, P.M. We caused
a suspension to minister
to this object. The Mission
is in session between 17
& 18th, & is our oldest
& station. Kindly & freely
by return of mail. Lending
me, please the paper wh.
will in the New last
evening. Tracing Yours

Rev. Sheldon Jackson D.D.

P.O. Box 1938 New York City

Dear Brother

Your letter of 20th ultimo
referring to our school here; employ etc.
etc. I have forwarded what you
said, & also what Dr Kendall wrote
to Mrs and Miss Eastman at Grand
Haven Michigan where they now reside
also Mrs Perkins letter and request to
them to come - as well as the Hon. Comm.
of Indian Affairs advise to me of under
date of Dec 14-1881 viz. "Replying to your
communication of the 23rd ult requesting
the continuance of the Navajo School for

Rev. Sheldon Jackson 2

the balance of the fiscal year, I have to say that on Jan. 1st the contract with Mr Kendall for carrying on that school will be removed for six months, with a proviso allowing this office to close the school at the end of three months viz. March 31st unless a special appropriation is obtained the fund for the support of the school will be wholly exhausted by that time, but if Congress makes the appropriation, in accordance with the earnest appeal of this office, the school can be maintained throughout the year, every possible effort will be made to obtain the appropriation." etc., but at this writing I am not informed whether either (or both) will come or not, having left the matter with them to decide -- I hand you herewith copy of my appeal to congress through the Indian office for these Indians rights under treaty, also with the article of said treaty in regard to schools which seems to me are yet in rightfull force.

Rev. Sheldon Jackson 3

But my superiors hold a different view, and while in response to my appeal they do ask Congress for \$5,000. for balance of this fiscal year and \$10,000 "next - more than they intended to do" they say nothing about the unfulfilled treaty rights as regards schools, except under date of Dec. 22nd in reply to my "estimate" to wit - "In reply I have to state that the treaty with the Navajos expired with the fiscal year 1881 and if any of the stipulations contained therein were not fulfilled, it is too late to attempt to carry them out now; the present appropriation of twenty five thousand dollars (\$25,000.) is all that Congress is disposed to give them;" - Brother Jackson I feel that Congress if understanding the matter are not doing right and I appeal to your influence - once to aid me in obtaining a proper hearing before that body - and I can use no stronger argument than I have made through the Indian office under date of Dec. 15 1881 to wit - copy enclosed marked 'A'.

Rev. Sheldon Jackson 47

And not having the remotest desire to antagonize the policy of the Indian office yet I feel reluctant to fold my hands and acquiesce in the fatal conclusion of those over me, -

As I understand it, the Apaches & other Indians in Arizona & New Mexico have no treaty rights - and yet under the Head of "Removal, Settlement, Subsistence and Support of Indians" in the act making appropriations for the year ending June 30 1882 there was given for Collecting and subsisting Apaches and other Indians of Arizona and New Mexico $\$310,000$ and because $\$25,000$ was given in the same act "For Support and Civilization of Navajo Indians, including pay of employees" they do not receive any benefit of the $\$310,000$, therefore it seems a disadvantage to the Navajos that they have had an unfulfilled treaty and have been good Indians! You having kindly said in your letter to us "If I can be of any assistance to you

Rev. Sheldon Jackson 5

at Washington in the hastening through
the Dept. Application for School Supplies
please let me know" - therefore I have thought
but to endeavor to interest you in the whole
subject of Navajo claims & wants, believing
that by assisting all - the School interests
will be also best subserved and through
that means, and a practical Missionary effort
alluded to herein ^{after} the civilization of this
people will - a can be reached -

These Indians are "Devil worshippers" as you
know - and while they do not ignore the
good spirit in theory - yet practically,
their "Doctors" apply all their efforts in an
endeavor to sacrifice / like as David did
lay the "evil" spirit for the time - through music
that controlled "Saul") the "evil" is "Chneider"
hence they sing & use incantations - and
through this pretended "power" hold a great
influence over the people and (like their white
Bro. under the "Ring" controlling here in the past)
for selfish ends - requiring pay in advance -
as in a recent case one of their craft "Doctors" may

Rev. Sheldon Jackson 6

was sick unto death - and they laid him outside of the "Hogans" (they live in poor homes or cause of their superstition that if they die therein the home is "evil" thereafter and cannot be even pried nor any of its material used or burned for fuel even) two or three times, to die -

I visited him and found the doctors did not intend to remain longer - having got all his wealth - and by their consent I tolled to them something in this wise - I do not blame you - for you have been brought up so - but the good whites (they know of many bad ones) having shown you many better ways in temporal things - have a better way also of doctoring the sick - a sick man needs to be kept quiet - your way would make a well man ill - also we have a better religion & faith - we believe the great Good Spirit is the strongest - and we pray to him and he will aid us to overcome the evil etc, and now I am going to pray for this sick "doctor" that the good spirit will let him get well - and I'm afraid if he was made well again would he not

Rev Sheldon Jackson 7

travel

work for the good spirit will show the savages
the better way as fast as he could learn it;
and he promised he would - as also has
another Dr "Lewis" residing near here
(and who was present on that occasion-
this country being still pagan, & is able to be appa'd about
My faith is strong that this whole tribe
of 16,000 souls (more) may be reached
and gathered in to a higher and better
civilization through these same "doctors"
with a reasonable effort of practical
missionary and educational effort -
especially as they have none of the taint of
Romanism among them as many of the
Indians in Mexico & C. T. have, who
have come in contact from remote time
with the Spanish Catholic element - shall
not the Pres. Ch. be able to send such men
as missionaries here who may under God,
blessing be able to reach these "doctors" and erect
on their strong Citadel a more enduring stone
ture? surely this field is ripe for the harvest
and offers better encouragement than many
other Foreign & home fields not excepting even Alaska!

Rev Sheldon Jackson 8

And as another reason for my faith in the out-
look of this people is - recently "Gamudo Numeho"
my Big Chief on the west came in and in an
hour or two after he arrived, a messenger
followed stating that a grandson of the Chief
fell dead while running a Bozish race (8
yr old) the old Chief was broken down in
spirit, because of the news - and in sympathizing
with him I said - It was a better country
beyond and no doubt it was well with
the lad - also it made little difference to
any of us where we went, if we were doing
right - the Great Spirit knew best and when
he called we ought to be glad to go etc
to all of which he separately assented to, and
said thols what he believed taking this in
connection with the fact that - surely in 1879
just about the time I came to this Agency
first this same Chief killed two "Doctors"
who - as they often do - carried their "croft" too
far and were evidently using their power for
selfish & unfriendly purposes - and the Indians
often rise in rebellion against too strong a principle

Rev. Sheldon Jackson 9

and evince considerable restlessness at times against the "Devil's grip" - which is a reason for action in my judgment on the part of Christians - There are also at the present time 24 "whites" including the Employes - traders Their families, &c - as an added reason why a man of God should be placed here - not a "mission" man of sectarian propensities - only such a man as can fight the Devil and his "grips" in the rough will win his way to success in this field - stripping theories - and too nice distinctions gotten out of too much "Book" -

Mr and Mrs Prelin moved into the new School Building last week they occupy the six lower story rooms & Hall - are now at work on the two upper stories - 50×70 is the size ~~inside~~ of our Building - stone with fireproof (1 in, above & metal shingles, on Mansard story) roof - I have requested permission to add an addition onto the rear of the Building to

Rev. Sheldon Jackson 10

Accommodate the wants of a Kitchen
and dining room etc. which will add
if allowed largely to the capacity of
the School

I have not met your Moqui
Pueblo teacher since my return -
have only known of his course through
the teachers here - The doctrine emu-
ciated by the great Teacher - Mathew
12 - 25 + 26 v^o - appears consistent to
me - and while I remain here - do
not wish to mingle in with the difficulties
at Moqui - but ^{do} all I can for the
Improvement of this people which is
the object of this letter -

Very Respectfully

Dear Sir

I would like to know which you would prefer to send. I enclose
a sum to you for the boy at
Hartford, or send a boy with
articles, which you shall designate
by instead think he
can send a boy to Philadelphia
free of expense, if you can
send it the rate of the way
I wish still to send a small
package to a minister, and
will address Prof. Taylor

Salem, Oregon - Jan. 3rd / 882 -

Dear Bro. Jackson -

Many thanks for your letter of Dec. 20th which I found awaiting my return from Southern Oregon. I found also a letter from the Board in relation to your paper, and tomorrow I shall write an answer. I shall do all in my power to advance its interests - although I am not gifted as a correspondent -

I send to your address today two (2) copies of the Synod's minutes as you request, and a separate copy of the "Alaska Appendix".

I don't know how our Syn. Com. (romans) will get along, as there is opposition, and ultimately that may be concentrated on me by Dr. L. as its friend - However let the future care for itself - today is ours - and by God's blessing we will be ready when the time comes -

Fraternal -

My Dear Doctor:

May I depend upon you to assist at our Chautauqua Foreign Missionary Institute next Summer, July 29--Aug. 5? Pray say my "Yea."

How much will you charge, you to pay all your own expenses, hotel, railroad, --- everything?

We expect a grand time at Chautauqua this coming season.

Have you any suggestions to make concerning our
trip?

Yours truly,

J. Vincent.

SUNDAY SCHOOL ASSEMBLY.

SCALE, — 400 feet = 1 Inch.

P. O. Chautauqua,

"CHAUTAUQUA"

On Chautauqua Lake, in Western New York, is the site of the now famous "Summer School" and "Assembly," organized in 1874, and to hold its Seventh Annual Meeting in July and August, 1880.

It is a vast educational, religious and recreative institution, to which tens of thousands resort every season; the "Original" of all the modern "Assemblies," and a centre of intellectual and religious influence. Chautauqua is nine miles south from Lake Erie and seven hundred and fifty feet above it. It is midway between New York and Chicago, three hours ride by rail from Buffalo, five hours from Cleveland, nine hours from Pittsburgh, fourteen hours from Cincinnati, sixteen from Philadelphia, eighteen from New York, nineteen from Baltimore, twenty from Washington, twenty-one from Chicago, and twenty-two hours from St. Louis.

Its elevation is fourteen (1,400) hundred feet above the Ocean, "the place where one can find the *perfection* of water scenery and the *purity* of mountain air."

Not the least among its attractions is its *freedom* from the pests of summer resorts, such as mosquitos, flies and other troublesome insects.

The meetings for the annual educational Association, "The Chautauqua Teachers' Retreat," "The Chautauqua School of Languages," "The Foreign Missionary Institute," "The Chautauqua Musical College," and the Seventh Annual Session of "The Chautauqua Sunday School Assembly," and the various meetings connected with the "C. L. S. C." (Chautauqua Literary and Scientific Circle), with Lectures, Concerts, Class Drills, Stereopticon Exhibitions, Fire Works, Illuminated Fountains, etc., etc., giving variety, instruction and entertainment.

The Association have erected at great expense many fine Public Buildings, among them an Amphitheatre, which as an audience room is almost perfect. But, in lighting their beautiful Forests and the Public Buildings with the "American Electric Light," the Association have placed themselves as heretofore, in advance in adopting and having the best of everything.

The series of meetings for 1880 will commence early in July and close about the 22d of August.

Boarding may be had at reasonable rates. Fine cottages can be rented for the season, entire or by rooms, also tents of all sizes. Good hotels and Restaurants are kept all along the shore of this lovely Lake. The Lake is about 20 miles in length, and steamboats, "first-class," pass over it almost hourly, touching at all points, and connecting at either end with all trains of the different railroads.

The leading railroads from all points heretofore named, and all principal stations, issue excursion tickets, good for the season, at about half-rate, and check baggage and camp equipage in reasonable quantities, "free" direct to the grounds.

A government post-office has been established for several years, and during the meetings mails from the East and West are sent and received four times daily. There are upon the Grounds offices of American Express Company and Western Union Telegraph Company, and Telephone connections with Mayville, Westfield and Jamestown.

Among the new features of 1880 are the beautiful fountains to be illuminated by "Electric Light," "The Holy System of Water Works," the enlargement of the Grounds to nearly double their present size, and a new hotel which, when completed will be among the very best.

My dear Sir

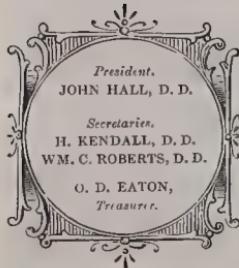

Yours saying you had requested the P.O. department to establish a P.O. at Klamack at hand. I have seen the postal agent here in regard to the matter and he thinks that it is no use to apply to any one but the contractors if they are willing to go out of the way to leave the mail at Klamack we can get the office without trouble, I am very anxious to get an office at Klamack and have the mail left there once per month, and anything I can do to help get it am willing to do. I will apply to the Steamship Co and see what they are willing to do in the matter. The contract to carry the mail to Alaska this year has been admitted as might well the distance to Klamack in this season.

Please advise me what you have

done in the matter. Capt Sheague
of Chickan says he applied to the
Dept of War at Washington to have an
office at Klamath and they
offered him to the embachers
for carrying the mail

Dr Jackson,
Dear Sir,

I thought perhaps
you would come over
this evening - There is a
young lady here who will
do well by I think, to
whom I have made offer
of the place for keeping mailing
this Mr. but it is necessary
for you to see her - Of you

do not come to-morrow
evening (Friday) but we
would like you will
come. You can ask Dr. Rob-
erts about Miss Sadie Howe, but
I do not think he knows how
niable & efficient she is -

I have an engagement at
Temperance Hall to-morrow even-
ing between 8 & 9 o'clock - Shall
I stop at 9-05 at Dr. Roberts?
& go home at 10 P.M. - or will
you come up to our house
at noon with committee?

Dear Bro Jackson

Your letter of

Jan-2^d received - I can not give particulars to exact date as the records of church at Mesilla I left at that place.

I arrived in New Mexico during the month of June AD1880 was detained on my way by the Indians - who were creating much trouble and killing many - we arrived however safely - after traveling two hundred and fifty miles through the enemies country in a stage we purchased property at Mesilla for church & School

Sept 1st AD 1880 - and opened
School - in about two weeks
after - we organized
Church - with 12 members
at Mesilla - Had a regular ser-
vices at Los Cruces until we
could not secure building when
for two months we had no service
we were then offered building
free by a Catholic in which we
had services until we
left about middle of Septth
AD 1881 - for this place -

I visited Silver City Shakes-
pere Deviating two or three
times - we organized
church - at Shakespeare with
nine members. About April
1st 1881 we kept a
watch and advised with
the people at El Paso Texas and
Mexico. St Augustine visited

twice and at many other
places --

Sickness of my self
and family the only cause of our
leaving the work in New Mexico
A more needy field is not
found in the U.S. - Here the
Missionary will have opportu-
nities to preach - and see the work
of plouting the church - Here he
will find the superstition and
vices of the Roman Catholic greater
than any point in the United States

Dear Sir -

Our Woman's Missionary Association in McElmore's Church in East 30th will hold the closing meeting of the first year of their work for Alaska, next Thursday evening (Jan 12th). We set out to raise \$200.

towards Mrs McFailand's
Support, and we expect to
make up that amount.
Can you be with us that evening
and give us a fresh impulse
so that when we organize
in February for the second
year, we shall begin with
a good degree of zeal.
We meet at a quarter of
eight O'clock, and like
to leave at nine O'clock
as some of us come from

a long distance. So your address
would not be a long one, - Let me
know please - to - morrow, and if
you can come, I will have the
notice given on Sunday, so that
our gentlemen can come and
hear you too.

Rev Sheldon Jackson D. D.

Dear Sir,

My Sister

Mrs H. L. Huntington, with whom
I am boarding, desires me to
invite you to have Lunch with
her on Monday Jan 9. at one o'
clock P. M. We know it is the
plan of the "Woman's Home and
Foreign Miss. Soc. of the Island of
Long Island" to ask you to address
them in Dr. Penyel's Church upon
that afternoon!

Since my Husband's return to
Colo. from his sad journey
to N. Reids. I have been waiting
for some word from him in
regard to obituary notices etc.

Katherin's death in our different religious papers. His friends are so widely scattered I desire it to reach all or as many as possible. I think there is some misunderstanding or notices would have appeared in the Evangelist and one or two other papers on this. Mr. Bopley's kindly written words I find... As soon as Mr. Walker has seen Dr. Kirkwood, Mr. Yage or Mr. Fishburn I will learn what has been done. In the meantime feeling it most fitting that some recollection of Katherin's life, work and death should be made in your paper, the Home Mission paper, when he gave so much of his life, all that he was allowed to,

to the same mission work and
died in the business, working
praying, loving it to the end.
I come with a request to you—
As one of Father's old friends
in Colorado, can and will you
prepare and publish in the
Pres. A. Missions a suitable notice
of my Father's death? Of course
I am willing to pay for such
an article. Do not know your
rates of publication. Like ask-
ing too much Dr. Jackson?
I know yours is a busy life.
If too hurried to grant my
request—please write to me at
once and I will find some
other friend to prepare such an
article. It is too late for the
Jan. number of the paper?

Father introduced your paper
into his School at River-
dale enough to pay for twenty
years, I think, for a year. They
will look for some word of him
in the paper. Father left me the
day after Thanksgiving for
his little ^{Protestant} church - so
well & so happy. By request he
spent the ^{10th} following in
Pittsburg also remaining there
contrary to his previous plan
until the night of that week. He
reached Hobbs on the A. & S. & L.
midnight train Saturday night -
retained his berth until Thursday
morning between seven & eight
minutes, then for the ¹⁰th of Dec. in
passing between two cars on the
"Rock" that close beside it, he
could see no distance either way

So as he stepped upon the
level-track he was instantly
thrust down by a sand engine
running - a high rate of
speed and giving no sign
as lay a long time unconscious
the engineers doing all they could
for him. Then rallied enough to
tell them he knew Mr. Yage who
was at once summoned and
who telegraphed my husband.
He was partially conscious during
the day, Mr. Yage tells us, but had
become unconscious when Mr. Walker
reached him the same night
and so remained till the last -
gently passing away here at
5.30 P.M. so soon as the word
came to me I started for his
bedside but was stopped at
the door of his room, by the

friends there, who told me God
had taken him home.
Mr. Walker came to me there
bringing the poor bruised body
with him and on Saturday Dec.
10. at 4. P.M. we laid his body
beside mother and our little
ones. I shall await your reply
most anxiously.

Respectfully
Mrs. Jas. E. Walker.

Alamosa Colo

Jan 7th Dr

Dear Dr.

Your Postal rec'd this morning. Whew! how can I answer all those questions. But I will try, & immedi. as I may not have time next week. We arrived in Alamosa June 20th - having left Cen. on the 6th & visited some by the way.

2nd I was assisted by Miss Conaway in translating three sermons, & delivered my first sermon in Spanish Sept 13th Organized by order of Presbytery - a Pres. Church at Baguache 3rd - Oct 19th - with 8 members - 7 of whom I baptized. The other - an American had been

a member of the Cumberland
Presbyterian Ch. I baptized
7 children - 14 in all -
my first baptizing.

Since then I have baptized
9 more - all Mexican - five
adults - two of them men
over 50 - years.

One of these, living where
we have no Ch. organiza-
tion - rode 64 miles (128
for the round trip) in order
to be rec'd into the Ch.

He passed the most satis-
factory examination I have
heard. He had been study-
ing the Bible for five years.
It was subject to taunts
& sneers because he was
abandoning Romanism.
In fact they told him
that I would not receive
him into the Ch. if he
came. But he risked the

long ride, to see what I
would do - & so if rec'd
into the Ch. he would be
freed to a great extent
from persecution!

I out do Presbyterianism
in receiving members.
To be sure & safe in the
examinations - I have the
Elders of the particular
church to question as
thoroly as they wish.
Then, as I have three evan-
gelists, who are also Elders
of some of our Chs - & one
or more of these men are
always with me at such
times, I have them to
question the candidate.
- all the questions are
translated for me - Then
I ask whatever questions
I think important.
It surprises me - the

clear prompt answers given
by ~~most~~ of the candidates
these two men especially
understood the Bible.

We have now 4 churches
& 20 preaching points in
this valley. Several of
these points have been
opened by the evangelist
since Presbytery Oct 14th.
They are working by a
program which I arran-
ged & are doing almost
all the work as I have
my hands full of Amer.
work, - having three Amer
churches. - one of which
I organized - by order of
Presbytery, October 10th, this
with 8 members - all by
letter. In a farming com-
munity - the most perman-
ent in appearance &

at the Ames, Chs in this Valley, I have rec'd into the Ch at Alamosa ten members - 9 by letter & one by Prof. of Faith. - lost one elder by death - dismissed two Elders & six members to other churches.

Have held two communion services here (Alamosa) & one at La Jara (Ames), Ch.

Have performed 5 marriage ceremonies - my first attempt being a double wedding. My fifth will be next Tues. night.

I enjoy my work very much; especially so. Go on horseback from place to place - rode over 1200 miles the first four months I was here. Have preached three times & rode 40 miles within

Eleven hours. - Several different times.

My congregations in each place are increasing.

This is a synopsis of work done in churches.

As to schools -

We have four - with five salaried teachers; my sister is here in Colo. for her health, & is staying with Miss Ross - the teacher at San Luis Costilla Co., & is assisting in the school & teaching music.

We have three of the schools in connexion with our Mex. Church organization - One at Cenicero - teacher Miss Effie J. Miller.

One at San Rafael - teachers Misses Mary B. Higgins & Lizzie Young. These three ladies Post office address

is Conejos, Conejos Co. Colo.
Another school is at the
La Jara Mex. Ch. - Miss
Susie D Grimstead - teacher
P. O. Cockerell P. O. Conejos
Co.

The H. S. is at San Luis
Costilla Co. - Miss Anna
Mr. Ross. teacher, Lillian
M Gilchrist assistant.
This is in a Catholic town
- no Protestants at all.
We hope it will be the enter-
ing wedge for a church.
We have the offer of a pri-
vate house for preaching
whenever we can send a
man. In this school are
five Mormon scholars -
with a prospect for more.
The schools are all full
~~now~~ but the great trouble
is the priest have
just started an oppo.

ition school - but charge
double our prices & do not
teach English, I think.

The school's are all
full at present. But
the great trouble is that
the children do not stay
long enough. The schools
run ten months in the
year. But the parents
not being very industrious
nor willing to work much
- take the children to the
ranches, or to attend to the
sheep & goats whenever
there is any work to be
done, & consequently the
children leave the school
early in the Spring, & are
late getting back in the Fall.

Yours truly
J. J. Gilchrist

Charles A. Taylor
Minister to the Moquis
H. H. Wingate P. D.
New Mexico
June 7th 1882

Rev. Sheldon Garrott, D. D.
160 Main St.

your letter, and Dr. S. & his other & I
are just arrived & have enjoyed our journey.
I feel with you that great success - however - of his
labor will be in my acquiring the language, & this is
one reason why I wished my brother for an assis-
tant, & that the contract requires a male
teacher, & if I must be in the school I could
make but little progress learning the language, &
brother was willing to remain - in case both he
this wife were considered - on salary of
\$500 (the two of \$100) which of course is less than
I would require, & to have a assistant for. Besides
they have the advantage of the experience &
confidence of the Moquis for most part. So, the se-
nior, & I, at least, I think there is all
except the most competent, but under the
circumstances, the most suitable available
assistant, & I expect this won't last.
I wish as soon as possible to give you a more

time to study the language & preaching to the
children in their villages. Something of the kind
must be done to counteract the base influences
of unscrupulous whites. I believe the others of
the mongrel Yuni (Cushing) & his influence, are
very likely to have a son or one like in the 18th (next year)
who was appointed physician here in 1868;
further. He comes in one of the villages, on their feast
days & other occasions dresses after their customs &
he is already a sub-sub chief. All who know
the Mogquis say that nothing can be done with
who have arrived at manhood; but "With God all
things are possible" said one who knew the old times,
& the very hope that this is not only one of the possibles
but even now one of the things willed by him, is
sufficient to inspire the effort. My last letter, to Dr.
Foster & you to yourself in the last mail, was a
final & earnest appeal for an answer concerning
my brother's appointment, & would not have done
it. had I received these of you before. Now
I can the 1st, with your resolution, & the
President's upon will be accepted as sufficient.
I am sure, however, that brother Willie will
not be paid from last April,
as it is that he has not been treated right

in the month of April, being a request to me to do so, I
not having received a word in reply to our
numerous letters. I will take some what of
the situation from your letter, & this is that when I
tell my brother, the explanation will modify his
view of what he deems unkind treatment, & yet
if our letters were seen by any other member of the
Board - as they should have been, in case of Dr.
Kendall's inability to act - the remains something
irreversible & unbusinesslike in this 6 or 8 months
difference. I write frankly to you, as to a brother, & you
must not present it so to the Board as to be read all
unless you think best. I will not feel any differently
& I think that if Prof. C. is commissioned to will
overlook the past. At all events, they are both
doing all they can now, & will probably continue
to work until Spring whether commission or no,
not as they ^{can} or leave here before that. I think
that if ~~they~~^{the} commission dated from April they
would be satisfied for Matie's (his wife) to do it in
Oct. At least they ought to be as my own wife could
for the labor - or the house work than half the
time not expecting any remuneration, ^{& this was all that Matie had to do up to Oct.} if they
are commissioned I suppose that my good
wife to be bound with me, all that is necessary,

& they will need to make no report to receive
their quarterly dues. Is this the case? If they are
convenienced, I hope that you will have the
Board, not only to send their back pay, but this
quarter also (ending Apr. 1st) as the late affair
has embarrassed my brother for a while, & this will
bring him out all right, & put him in good spirits
& in a more charitable frame of mind towards
the time I. If you speak of my studying the language
at all my spare time. I would greatly prefer for
him as many hours at it if I had the opportunity
but, the cold & wet weather begins down during the
winter, & I have no one to leave with my wife while
& go to the villages, so that we can do but little.
As soon as Mr. Cleaving arrives, we stop for a
very different state of affairs & then I
spend a great deal of time in the villages. As so
as he comes I will also attend to the matters
mention'd in your letter. We shall continue the
school in the village, as you suggest & as we had
contemplated, until all things are in readiness
for the school to open. I hope that the books &c go
which I sent to the Board will be sent without
delay. We are again working upon the house & hope
to complete it within 8 weeks. I tried to get Mr.

Total expended to date \$874.70

Estimate of cost of completing building 300.00

When the house is completed it will be comfortable
substantial, convenient & sufficiently commodious for our
family. The expense is much greater than I at
first anticipated - almost double indeed - but I
have incurred as little expense as I could, & the shingle
roof added greatly, but seeing how all the shingles
break out here we decided it folly to spare expense
for want of comfort or safety to health.

Our building material cost but little if any over
70. what Mr. Kinner paid for his bought at Wm. St
Ld Co. in Kansas. We got lowest wholesale rate at
low cost & 2nd class freight by car load to Allugate.

Now if the ladies can send the \$400. it would
please have them do so; if not, please request
the Board to do as my possibly due for
June 1st to Apr. as I shall have to meet

the bills as soon as the work is completed. We are very anxious to furnish the house, as soon as possible after it is completed, but the furniture would not more than arrive in time if ordered now, & we can not order it until we receive something from the ladies as we have paid out a good deal on the building, & are short of cash.

And now as to what you say of Prof. St. John & Maj' Rowell, before ^{his} left I made up my mind that he knew but little of the operations of the Indian department & was glad to have this confirmation by you. You may be assured that we treated them kindly, as I trust I usually do every one. They were very kind to us, & both he & his wife took tea with us one evening. Maj' Rowell I have never met, but have had pleasant correspondence with him & he has aided me greatly by sending me much of his publications as are of assistance to me in acquiring the language. And now good night, & do not forget us when presenting the great work of Home Missions to the Father of all grace.

With love to all in highest regard, Mr.

John S. S. 1. 1. 1.

Dear Mr. & Mrs. St. John, we shall much appreciate your kind & welcome letter.

the finishing out by contract but could not do it for less than \$360. so I have employed two Americans by the day, & hope to complete it throughout for about \$200. It pay the Americans 70c. each per day, & they are good workmen. I will append to this an itemized account of expenses incurred thus far, & you will see that with the estimated labor we it will run up to about \$1100. the Indians cost me \$600. & now if they will send me \$400. more I will raise the balance or pay it from my account. Outside of the building I have made some necessary improvements, fencing the yard &c, at cost of about \$40. or \$50. which of course is not included in this account.

Mr. Garrison

Dear Sir

During

the "hostilities" last year, by some means papers were obtained all last, I shall be very glad to forward any back copies you may be able to furnish me, I read them and will be particular about

Send at present,
I have May, June,
& December,

I will send a year
subscription, shortly,
the new Principal has
not arrived, we hope
not, and try to do
the best we can
under the difficulty.
Pray for me, that I
may live to witness
the Master's will,
Yours truly

Dear Dr Jackson

You wrote me a card, that
you would be here the Monday of
Jan. 1. Dr. Lycom decided that it
would not be profitable for us to have
a meeting on that day, as it came
too early in the month. The meeting
of the 1st Monday on account of
the ~~1st~~ holiday having been postponed
to the second, made it very
inconvenient to change the regular

Day of Meeting. Should you intend
being here on the 16th, I shall be
much pleased to have you give us
half an hour at 3 o'clock. I would
like to know it by the 11th so as to
give notice in time

Yours truly
William

Re: Dr. Heidorn Jackson A.D.
Dear Brother

If you are to be in the city a few days could you make it convenient to spend an evening and night with us. I would like to show some of our S.S. workers and friends to meet you socially and so become better acquainted with the Home Mission work as I feel that there is a great lack of intelligence in regard to the work in the women's and men's service. I am anxious if we could ever get you to see

they would be unseemly. I
need of more laborers and
means and we might enlisted
the Ladies' Association. For some
reason the notice of the meeting
this P.M. was not given in our City,
of those ^{of those} very few, who'd have
been glad to have heard you will
not be present. I am very sorry to
be absent myself. But illness pre-
vents my going out to day. I have
a deep interest in the work in
Alaska Mrs. Henry Bellamy Young
is a dear friend. You will
find this my major and my account
concerning her has been from her
published. I hope you will
be able to give us an evening
this week. I am very much
looked for.

commission as Mission teacher
& opened School Sept. 14. &
taught until following May
20th and we have seen much
good fruit from her labors.

He organized a Church
Oct. 13. ll with 14 members
and have rec'd. a lot of

Members, several more having signified their intention of coming in at the next communion. We purchased an old building & refitted & seated it for a church, having a good room 19 x 45 in the clear, but now too small. We have a parsonage of 5 rooms built by the pastor, at cost of \$490⁰⁰ & turned over to the Board at \$350⁰⁰, and now worth at least \$1,000 owing to rise in property.

We were specially helped in this work by kind advance of \$300⁰⁰ ^{or} by yourself - by \$175⁰⁰ from H. G. Ludlow of Troy, N.Y. = 25⁰⁰ - from Ladies of 6th St. Pres^{by} Ch. Albany, N.Y. = \$60.00 from Rev. H. Fessy, Chicago.

We have rec'd. religious
and temperance literature from many parts
of the U.S. & Canada, & scattered
it through our Mining Camps.

We cannot recount
all to whom we are
under obligation. We
have great cause to re-
joice & be thankful.

One cloud of sorrow
shadowed us in the sad death
of our first Elder. W^t. A.
W. Conklin, on Christmas Eve.
1880. In preserving order at
the ~~the~~ Christmas tree gathering he
unintentionally offended some Mex-
icans, three of whom attacked
him as he was leaving the Church,
one of them shot him through the
heart. Two of these have ^{since} suffered death for their crime.

The sad occurrence
was universally re-
gretted by the Mexican
population, and the
Murderers were from
a protestant family.

It was done in a
heat of passion.

Our relations with the
Mexican population have
been of the most friendly
nature, and we like
their polite & hospitable
ways. They lack in
Energy, but not in many
noble & generous traits
of character. I think
God has given us at
least two at least genuine
conversions among them, it
may be more. If I had been
more faithful I realize it cer-
tainly would have been more.
Three serious spells of illness have

Opposed my work somewhat.

Owing to the rapid influx of American population we have had our time & labor nearly entirely absorbed by them lately.

We have however Mexican children in our S.S. & otherwise under instruction, and we hope to do more in the Educational way soon, it being our intention to erect school buildings this season. In fact we contemplate a Presbyterian College at Socorro in the near future, we have distributed many Spanish Bibles & tracts.

Yours fraternally

Post Office Department,

Office of the Second Assistant Postmaster General

Washington, D. C., Jan'y 10th 1882

Sir:

Referring to your recommendation that the proposed office of Klawock, (on Prince of Wales Island) be embraced on route N° 43096, Port Townsend to Sitka, I have the honor to inform you that Capt. James Carroll of the steamship Eureka, carrying the mail on said route, reports that to do so would involve an increase of distance amounting to 200 miles per trip. Capt. Carroll states that the proposed office of Chikan (Fountain Harbor) may be embraced on said route, increasing distance only 70 miles, and that the Klawock mail may be conveyed from Chikan by means of a steam launch.

The Postmaster at Port Townsend, has not

reported whether he has conferred with Mr. Jas G. Swan or Dr. Minor.

The expense of embracing Klawock on route N° 43096, if Capt. Carroll's statement of increase of distance be correct, would be about \$3,500. per annum.

Cannot you suggest a more economical means of supplying that place with mail?

Very respectfully,
Rev. S. J. Davis

Second Asst' Pm General.

James New Mex Jan 10th 82

Rev. Sheldon Jackson D.D.
Dear Dr.

Yours of the 2nd came this evening.
We could hardly believe it was
from you. We are still "holding the
fort" at James, and working away,
sometimes encouraged, sometimes discouraged.
I wish so much that you could come
and see us and see our "Ingenis".
You might be able to say whether we
are accomplishing anything or not.
We have a nice school this winter
and the school at the Springs has
surpassed already, my most sanguine
expectations. One side of the Catholic
Church fell down last year, letting
a greater part of the roof fall in.
Least fail the Priest who used to oppose
us &c. died also. After all of our trouble
he came to be right friendly and would
always call on me if he needed.
Medicine.

In his last sickness I attended him and he got very much better and then he went down into Valencia Co. to his Davis and very soon we heard that he had taken worse and died.

This whole Country is open for the preaching of the gospel and for schools but it seems as hard as ever to get teachers or help of any kind.

Indeed it very often seems to be impossible even to get an answer to a letter, however important it may be.

We have a dear little boy at 5th hours, now over 9 mos. old. I will now give you some dates. We reached Jemmes on the 6th of March 1878. Opened school on

the 18th ^{of schools} I think it was in May we opened Sabbath school and I began the first year to preach a little as I could in Spanish. Sept. 8th '78 church organized. Building commenced a few days afterward and occupied on Dec. 7th. Chapel opened for public services Dec. 8th '78

Mrs. Shields took sick Oct. 12th when
we were in the strongest of the building
and died Nov. 8th June 13th 1879 Miss
Leora B. Shields and Miss Bell R. Leech
Came. Nov. 10th I was married to Miss
Leech. In August 1879 Rómaldo Martínez
was licensed to preach. December 15th
80. Miss Leora B. Shields went to Pueblo
Boarding School. April 5th 81 Miss
Mary M. Harris Came to the James
Mission June 9th 81 Miss Clara
Shuttleff Came and left on the 28th
being in very delicate health.

July 4th I took Miss Harris to
the Springs, to occupy the new
building which we had commenced
in the latter part of April. The Ord.
has description and plan of this
building. July 11th 1881 School opened
at the Spring. There were present at
the opening 19 scholars and 19 parents.
This school has grown to near 40 scholars.
A grand Hotel is nearing completion there

and it will be an important point.
Services and S. S. were well attended at
the Springs. Day school is doing
well at James and Church & S. S. are
tolerably well attended by Indians,
A few Mexicans and Americans
attend at James also, but not regularly.
That is a very few attend regularly and
more occasionally. Being such a
horribl Country as it was at first
I suppose we should thank God
and take courage.

Mrs S. joins in sending Regards.

Yours in Christ.

now ordered at a cost of \$185
this involves us in a new
delay or pause, but as the
labor will be donated & also
the wood for the work, we
have no anxiety on that
score - Our attendances still

Letters concerning work in Santa Fe.

Arrived in Santa Fe the twenty-fifth of Sept 1-
1879, found Mrs W E Griffeth making an effort
to conduct a mission school under very
discouraging circumstances, which were
beyond her control. Commenced teaching
the first Tuesday of October. Mrs Griffeth
remained in the school until after
the first of Jan 1880, her place was filled
by Mr Edward Ward, ^{"S. J. N. S. F."} who aided very much
in building up the school, and ⁱⁿ gathering
in a class of children who had never at-
tended any school. The school rapidly
gained in interest and numbers until
it was necessary to employ a third
teacher. The services of Mrs Guyer of Santa
Fe were secured, and her was due
much of the success of the school.
The enrollment reached over

hundred pupils. The services of these two teachers terminated with the school year, the vacation during the month of August was spent in visiting among the children and their parents. No part of a mission teacher's work is more difficult than visiting the homes of Catholic parents. The school opened the first Monday of September after one month's vacation. The larger girls, Nellie Lany and Franche Indian girl and Miss Abeyta assisted in the school until the arrival of Mrs. L. J. McMahon, ^{on the 1st of} sister of Mrs. Sharon. The school steadily increased in interest during the entire year. On the twelfth of November Mrs. J.

McMahon was married to J. D. Perkins of Santa Fe, after a visit of seven weeks down the Rio Grande as far south as El Paso. Mr. Perkins entire attention was turned to the school and the interest of the school, and numbers of pupils steadily increased until vacation, July 1st. School reopened Sept. 1st 1881. Since after which time plans were made

our being transferred to the Navajo
Boarding school at Fort Defiance.
The children had become very dear to
me, and I now look back with much
pleasure to the many very happy days
spent with the children.

Mrs. J. D. Perkins.

School opened here Feb fifth 1881. There were
obstacles in the way of a boarding school beyond
the control of teachers, and a day school was
kept open ^{during the school year} with good attendance and much
interest among the Navajo Indians. The ^{Industrial} Boarding
School was opened Sept 18th 1881. The Average for
the first quarter ending Dec 31st 1881, was 22.
The Average for the last quarter 44 $\frac{1}{3}$
The present enrollment is 60. The work
is very promising.

Dear Bro

Yours from Washington arrived yesterday,
Glad to hear from you, Have written you
recently and expect my letter is still
chasing you somewhere.

We arrived at Glenni on the
19th of June 1881, Dr T. F. Cady & family left Glenni
on the 21st of June 1881, We opened School on the
27th day of June 1881, & Miss M. J. Hammock left
Glenni on the 9th day of August 1881

In regard to the School I can only say that
it is prospering better than I expected it would,
with the many obstacles in the way of its pro-
gress and the lack of facilities for carrying
it on, I have known several tribes of Indians, but
must say the Génies are superior to any & how-
ever seen before, and in my judgment will
make good Presbyterians, if educated, We are
very much attached to this people, and our attach-
ment to them increases as we know them better.

We are just-becoming able to understand them
and make them understand us. They treat us
very kindly, and many of the parents are beginning
to take an interest in their children attending
School, which is something new in Germi; hitherto
the children came when they pleased, or re-
mained away if they pleased. And if the influence
of the parent-was felt at all, it was against the
School. But this is fast-changing for the better.

In one instance a man came to the School and
after staying a short-time went-away, soon re-
turning with his little girl, ~~and~~ told her & he
must-come to School and learn. We frequently
have a large number of the parents at School, they
will come and sit for an hour at a time and
watch proceedings very closely, and when ready
to go, shake hands with us telling us they do not
understand it; But that it is good, and they want
the children to learn. We are greatly encouraged.
This is about all that occurs to me will be of
interest in the work you propose.

In answer to my last-letter please give me your
views on the situation of affairs at Germi; if you
have not already done so, I sincerely yours

Rev. Wilson Jackson,

Dear Sir, -

It is nearly time

any special object which is
just now on your mind in which
you wish contributions, or rather
any one thing that by in-
effort we might do, mention it;
it may be taken up as others
have been. If you choose to
mention the lecture of the
Terfield Memorial, if you can

well from outside I think.

You know you worried me
a little about the bell, so if
I've asked more, ^{than you can give} just write about
the bell.

Rev S Jackson D. D.

Dear Sir.

I received a letter from "Nellie" from Charles' in which she said "Dr Jackson is here". We had not heard of you being home and are very glad to hear the news. We hope you had a pleasant and profitable journey. How glad we would have been to have had a visit from you during your stay here. We think we have a fine school and would rejoice to have you see it. We have arrived, &c. and think Mr. Ward carried out your idea of having such accomplished by the Navajos. We have two cooks, two spinning and mending women. One assistant matron. One wash woman and one wood hauler. There are all assisted by others who do not receive pay for their services. We have one assistant teacher. a Indian boy from Albuquerque, and for the past week a matron. a Miss Estevan from Denver. But we are pressed for time yet to perform all the duties belonging to the school. Our school will not average over ten students each. We sent out the occupants of his rooms to make room for the Indian, but knowing at this time that

They did not intend to do anything in their school. They
have now seen their mistake though. Do you know when we will
be sent to their school. We should be glad to know. We had a
man of transportation brought up to Marcellus and he said
the prospect of a school is there. They seem to want a school
there, and do seem destined to give up here. There was a time
when I thought we could not accomplish anything there, but
time has passed, as the size and condition of the school will
show. We will remain in the school until the 1st of April, and then
if the Board has no further use for us we will quit teaching
for awhile. Mr. Perkins and I have worked very hard, how
but we have had much reward also. We were very much
surprised and hurt to hear that Mr. H. Taylor had been ap-
pointed here and to know nothing of it. Mr. G. W. Hinckley
will be first, then we will get a from Allbrighton, and
possibly Mr. Pendell made up what he had put Mr. Taylor
in charge of the school. It happened it was Mr. Pendell's last
letter to us in October 4th, saying, Mr. Pendell and he removed
to another place for younger teachers but it was all off
and the ~~the~~ place seemed inevitable, and we accept-
the situation quickly but at first rather. We are functioning
in about middle of Dec, the first wrote in February, where
we do not yet know. We will receive a letter from you
at our new home. We will write soon. We will be
leaving this place on some Thursday in about ten days,

Dear Sir & Brother,

We are getting on much the same as usual, two days ago the 16th Mr. Eastman gave us the use of a mule team, and we hope our severe inconvenience for want of wood is past. One by one the neighbors will give way & presume. We expect to make at fifteen dollars per month to drive the team and send one of the boys along to help load. This will make the wood cost \$1.50 per month for two or three months, and then we shall have enough ahead to last some time.

Mr. Atkins is very closely confined to the duties of ~~his~~ the school and care of children. We have a nice lot of children. They promise well for the future. Our daily classes are small & presume in your

eyes. And yet they try to look over them,
To day Mr Eastman comes to tell
us to take in that wire clothesline
at night. it will be a dangerous thing, "We
have always kept it out without loss, and
do not see any sense in taking it in. but
we must obey for his orders are severe and
he never stops until he makes us do his
bidding. I want him to get some kind
of cloth for boys pants. have been asking
him for three and a half months. He
orders me to make pants of cotton on
hand, which I need for bedding. I tell
him it makes us so much washing &
does not wear well in pants, well
he says it is better than they have
ever had. I know that well it keeps
me pressed with sewing all the
time and washing bed. Now we are not
bad friends with Mr Eastman. he is kind to
us in many things. brings us his daily pa-
pers and in other respects shows an interest
at times. but it is all in the first he has no use

3rd for us. This his ^{en}slaves have told us from
the beginning. We had sincerely hoped to have seen
you face to face, and this gives us some light
that we cannot trust to ^{prophecy}. We are not tired
of our work, only weary in the manner of its
manipulation. We have a nice school and this
is our delight, but we are not enabled to do
in it and for it as it deserves. We have the wood
and draw the water but our ^{capital} does not suc-
ceed in getting here to examine our work &
we are too proud to be snubbed into teaching
children out half clad in midwinter, and
in saying half clad mean with stockings, coats
and without stockings, and with a poor
supply of gloves, hats &c. There are no coats now
and but few gloves. I have done complaining
from this time forth, I send you the jottings
or statements your last letter speaks of.
I receive good letters and good reports from
"Mellie" the Indian girl from this place sent out by
Mrs Crane of Beacon Springs, is at Carlisle now,
her brother attends school here and is writing
to her to night. Mrs Crane made no a pleasant
visit sincerely. Mrs. J. D. Perkins.

Dear Sirs

Have just arrived at the
place where I am to be at
the Office; as the mail goes out twice
a day, as usual, and a day
or two, I have a
fear of sending your address
without a mark. So far, while
I have been in town as little as
possible, I have not had time to
take a post office, and as a result of the
fact, I have not been able to
mail my letters, and as I
have ready to open school, if I remember
rightly, it is not far off, and it is
very cold, and the school room will be
furnished, and arrangements have been
made for me to fit it out, and enough to

occupy, and we could not get a room
in a house in Fitchburg, so I took a
room in the middle of Erie. I think it was before we
got to Fitchburg, but I don't know for
sure. I got a room in a house
of Mr. W. H. Thompson,
and I am writing to him.

My wife is teaching German
in the school this winter, and I am not
ching home and keeping house alone. We
feel that though laboring under very great
difficulty and difficulty, yet if God
recompenses labor, we have been
enabled to accomplish a good work among
the people here, and I am
very glad to have my wife here.
She will encourage us in our labor,
and I am sure she will be a great
help to us. We have
the work room over Chappell and School rooms,
and I am sure we will have
a good time here. We think so. Rev. Roberts has joined us

done his duty by the people here, and we thank
you for your kind letter. We are
impatient to get a teacher, but we
will not let the opportunity pass.
We have teachers here, however, & mind it;
but we do not, we are in the habit
of using our labor as missionary teachers
and give place to no one competent
and willing to do the work. The
Board wishes us to do so.

As soon as convenient I will
have a Board in Christ;

My Dear Miss Dyer.

I am advised by Mrs. Mitchell that arrangements are being made to hold a meeting at Danville for the purpose of effecting the organization of the Presbyterian Society. I wish to ask whether it would be feasible for Dr. Jackson to return with us to Williamsport & hold a meeting for the benefit of Churches in this section. If such an arrangement can be made please reply & we will make the arrangement accordingly.

Moved into " " " " " Dec. 1st - 1880
Miss Mary H. Hollingshead arrived April 7th 1881
This my 1st visit and second to W.C. Taylor
(the 1st being the first visit in this community
as far as I can learn) - April 13th - 1881
Little S. Taylor died Aug. 25 1881 & as I am
most familiar with him & his wife
the author of your letter is the only one
who a last month was deceased in the
Apalachee & I hope was born Sept. 25 1881
His first son was born - We hope to have
his birth as soon as you can visit us.
The school at the village was opened Nov. 11th -
Here are all the dates you wished, those being

We have heard nothing from Mr. & Mrs. H. since he had his bonds freed & went up to Pittsburgh which was last Friday. I hope to see him in here shortly. No news to report. The resolution contained in our last report is the one or two questions that I have asked you since last I wrote, I hope it will not be necessary. I am sorry to say I am trying to get us a raw girl. If you cannot attend to it or do not like it best, please let us know now that we may take another. I trust that the Board will have sent you last quarters appropriation before you receive this, otherwise I will let you know. We have had a good many things brought up & we will decide on them. Some \$800. or so if you will just mind it till I get back & then I will pay for you. It all depends. If you arrive & will report, you any important news or changes will keep you posted.

For the present all my regards from my wife & myself. I remain as ever your affectionate & Obedient

to our child's education.

Ever truly yours

Charles A. Taylor

I suppose that by "correspondent" you mean
of course you refer to my friend in Boston

Dear Brother

Your Pastoral cord
giving your address in N.Y. is just at
hand - I did desire to ask you several
questions about outfit, route &c. but it
is too late for that now as I expect to
be on the road before ^{an} ~~another~~ to this
could reach me here -

Do I will ask you to answer this
at Tucson - It will be a great help to
me in making a start then if I find
a letter in the office there or my mind
from Rev Jackson - giving me the names
of any persons you know there or know
of, who are Presbyterians - or who are likely
to take an interest in our work

If you can enclose me a note of in-
troduction to any one there so much the better

Then if you will tell me something
about the situation there - I understand
from what you said & from Dr. Roberts,
that our church has been sold out to
the Congregationalists - & that there has
been a sort of apportioned effort there
that has failed - Tell me what you know
about it - and if there are any Presbys
in the way, let me know so I may not
~~work~~ against them -

and what is time then to start with now.
Also the same with Tombstone, Phoenix
Presbyterian - and me the names of any
reliable Presbyterian people in any of those
places, or anywhere else in Arizona that
I can put myself in communication
with as soon as I get out there -

any other information you may think
will be of service to me will be gladly
received - Please write me so it will reach
Tucson by the last of this month
as I hope to be there by that time -

I see by the minutes we have a church organization at Tucson - what do you know about it - Who are the Elders & who are they? -

But you know what kind of information I need -

With many thanks for kind wishes & favors -

Dr Sheldon Jackson

Dear Sir I am truly sorry to write you there is still no school opened, no Principal here & hear nothing from him since some time in Dec', Cal Tiffany is still absent and if there would not have the school opened until the Principal opened it. And I have at last made up my mind if its best for me to go back home & will do so as soon as the Board sends me my salary I wish to leave as soon as the first of March, if there is opportunity to do so. I fal backly about it but the work is not going on at all as it should, and at the same time we are doing what we can, which is not half what one should do yet I know we are doing all in our power, Miss Stewart says

she shall stay the year out that
is until May or year from
the time we came. I very
much regret not doing more
and shall ever do so. I shall
never think of the poor Indian
of San Carlos without a sort
of pang. I did, hope the work
would have been going on
as it should before I left,
for I have felt since last
Summer I must go in the
Spring. Should not think it
safe to remain through the
hot season it effected me so
badly last season. This winter
I have been quite well and
could have done something
if there had been a chance.
The boys & girls come to my
room & plead for a school
say "School Branches" and when
I tell them by & by they are
disappointed. & are loosing
confidence if I am not mis-
taken I have told them that
so long the buildings are
good & there is good material
for a good school all that
is wanted is teachers, some
one to take interest in

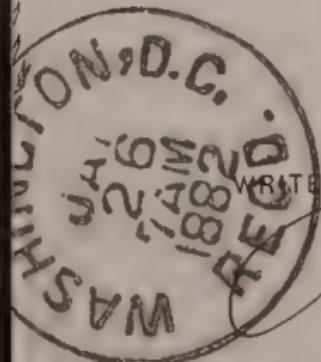

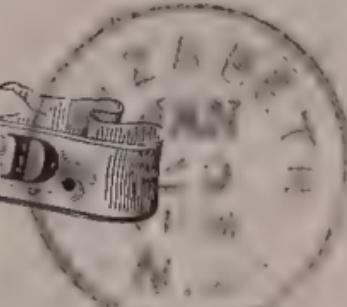

the work. I feel the money & time
spent on far by our Boarders
almost lost, I say this with
sorrow & humility but can
not help the matter. I have
already said too much
for my own good and
yet have not meant to.

Complaint of my own
the least, there is a hope of
School as if ever gets started
which I almost doubt, I
would not wish so plainer
for the Societies do it would
dis courage & do no good
but I think you are right
to know about it, please
consider this Confidential
I have as I said before
incurred displeasure by
speaking my honest convictions.
Every day the women
& girls come to my room,
and I show them what I
can about their work often
cutting garments and
helping them make them
and have gained their confidence
as you can see, as they
say this, now talk of letting
their girls come when the

school opened and they would
not hear any thing so it
last season as they like to
help their daughters to help
carry the burden. I have a
Chart hanging in my room & when
they come in I get them to
read & count & sing with
the school, boys who have
learned, I am so glad that
some loves me like and if
may tell in Eternity oh that it
may spring up & bear some
fruit. I do so wish you
could have come down to
see us. Your self this
winter it looks to me as if
things would have gone
differently. I thank you much
for those papers you so
kindly sent me. Please
remember this is only for
your self. I shall be glad to
hear from you soon and be
as sured of my warm interest
and sympathy in your
noble work. May the Lord
bless you. Do not forget us in
your prayers. very truly yours

and perhaps this may fit

San Luis, Colo. Feb. 82.
Dr. Johnson,

Dear Sir,

In reply to your card
of enquiring as to dates of opening and
closing School at San Luis & Mesilla,
though I have no exact record
of dates, ^{can} give within a few days
of the time.

The summer I went to Mesilla
I did not take much over a month's
vacation, as I feared some time
might elapse before another teacher
should reach here.

Opened school in the fall
about the middle of Sept. 1880 and
closed about the middle of June 1881.
It is too warm to teach after
the summer months.

The present school year opened school Sept. 1. As this is the only Protestant school in this County I have had my Commission made out for Castilla, N. M., instead of for San Luis, that I may do some vacation work in some of the other little towns in the vicinity, should the way open.

I think no one could ask for a more enthusiastic welcome than the people of this place gave me upon my return from Mesilla.

We were nearly thirty in school previous to Christmas, but by that time the "Power that be" took the alarm and started an inspection which, they have carried away several of my little friends, but only one of the number had been missing for any length of time.

There are 17 in school now,
four of them being Mormons
from Minnesota, Cassier Co.

The "padres" have started an
opposition Sabbath-school also,
at the same hour I have mine.
That has brought the S. school down
from 35 to 15.

In regard to this opposition
school I can say with Job, That
which I greatly feared has come
upon me; yet I believe our work
here is not man's but God's, and
if it is His the gates of hell even
hail not prevail against it.

The asthmatic trouble for
which I went to Mesilla has not
returned, and I am able to keep
house and teach without feeling much
"worse for it."

Mr. J. J. Gilchrist, who took
my place, is doing splendidly

well, both in Mexican and American work. — Miss Brimstead, who, as you will doubtless remember, came to San Luis in my place, is in a Mexican school in Conchos Co. near where "Hector Gomez" lives. She is well pleased, and is succeeding finely. The schools at Cimiceros and San Rafael are prospering. Mr. Jacobs told me a few weeks since of quite a Protestant awakening at San Vicacio, a little town three miles south of this place, but I have heard nothing of it from any other source. At 11 a.m. from Conchos, J. M. went up to Alamoza just before the holiday and visited with the Pres. church, but I know of no other place for good in this vicinity.

I wish you would ask
Hon. Mr. Dice if we cannot
have rations added to the
contract for such tracking
as doing it. The British

labor of keeping up a soft-

pils. See if he will grant
the rations in such cases
& then

out our sending back the
contracts to be changed
can't he give us a general order

3. Please ask him if we can
not have a contract filled
out that we may send to the
Principal teacher at every A-

them have none & have to go
to the Agent & find out
what we have contracted

it will be all right, but
we can have no action in

What is it now
is more agreeable to me.
We have now in Germany
a "sovereign" power
Christian Socialists who
for several years now

Dear Brother.

Allow me to introduce
to you, Rev. Sheldon Jackson; he
preached for me this morning, holding
the congregation in intense interest, as he
depicted the great needs of the Gospel in
Utah, Alaska. Dr. Jackson has
no desire to take up collections, his object
is scintly to awaken the interest of
the people in this centre of influence
in spreading the gospel ^{through their own denominations} & arresting
the coils of Mormonism & such like. Mrs.
He was in the Chapel of Transfiguration ^{some} two
years ago, also in the Metropolitan, &
is always welcome to the pulpits of
our own denomination. If you could
give him a hearing I think both you
& your people would be delighted with
him. Yours sincerely John Chester.

My dear Bro:

Your letter of last Saturday came last night. I have written to Will Shallenberger. He is one of my boys. I gave him as good as handsome a wife as I ever gave to any man. He was a trustee, S. S. teacher, supporter &c in my Bridgewater Church for several years. I do not believe that a more honest man sits in Congress to-day. Besides, he is able. He will sift this matter at Sitka I can assure you, & if right to all concerned, it will go through, if his influence can make it go. Surely nothing better could be done with an abandoned government build up there where I never expect to see, than to make it over to the U. S.

where the children of what a friend
of mine calls "these yellow devils",
may be educated. Mrs Lora says
our only hope for the poor Indians
is, to educate his children. She is now
off as a sort of police officer I reckon,
to bring back some lads who founded
a freight train & went home. I am
coming & have strong faith in our
efforts with the children. Mrs S. says
Lora is getting some stronger since
she returned. I am afraid her health
will not justify her remaining long in
the work. Thanks to you for all your
kindness to interest in her. She has some
brains & some grace, but too much
ambition for her physical strength.
She works too hard. Hoping that God
will long use you for His glory & am
as ever Yours truly paternally

Dear Sir and Brother,

Having an opportunity to send a letter to you, I prefer to speak of our last few days experience. On Saturday last Mr Perkins went to Mr Eastman for leather to repair shoes for the children. Three large boys having agreed to make an effort to mend their shoes. - There being no large shoes here, Mr Eastman refused with a very impolite no sir, "The leather is not intended for the school," and yet Dr Sutherland showed us not long since how neatly he had stopped his family's shoes. This I do not speak of for any other reason than to ask how are these children to be taught to mend their shoes; Are we to furnish the leather; if so how, and when, and where are we.

to get our money back, for
we are in an immediate need of money
The candles also. Mr. Eastman says
must be charged to Mr. Perkins, who
furnishes the lights if we are to do
it we should at least be satisfied of
the fact and some funds be sent us
for this purpose. We have had no material
yet for boys pants, are using tickers
which we dislike very much. The school
increases in interest. Our help is all
Native with the exception of one
American lady, a friend of the wife.
The sewing machines are operated by
women and boys. The cooking, washing
and hauling, ^{is} performing much
general household work performed by
them. We are quite well although very
tired, but tired of our work but
tired in it. We hope to have you you
can help us as much by coming to Washington
now, hence we will not ask you to come.

make us a visit during the cold season. We are in need of dried fruit. Tea, Baking powder and coffee, so there no way of regulating these things. I write to the Board Commission for making some statements in regard to our monthly quarterly Report of Garments manufactured. You will get the ideas as set forth. We are compelled to do some things that are absolutely wrong, but we are worried into it by promises which are never kept. I told you in my last I was done complaining. I trust I am, but we never know what a day will bring forth. We are in need of shoes and stockings. The weather is severe. Our terms with Mr. G. Brown are finally, enough but he is no ethical man. What are we to do with these poor people. We know that Mr. Keene is in Washington, but we know also that he paid only one year ~~as~~ ^{as} agent if he was agent here
